4 Day Backpacking Adventure

Denali National Park & Preserve

Thank you for considering a trip with Alaska Alpine Adventures! We have spent the past 25 years perfecting the art of guiding expeditions throughout the most remote wilderness regions of Alaska with folks just like you. Included below is much of the information you'll need to prepare & plan for your trip. Of course, never hesitate to reach out to us with any questions or concerns.

Before booking a trip with Alaska Alpine Adventures, we encourage you to thoroughly read our Reservation & Cancellation Policies below AND make sure you read and understand your personal responsibilities delineated on the [Safety & Responsibility page on our website](#).

Our policies are intended to be fair, both to our guests and to our small business. Ultimately, we are a small adventure travel company operating on public lands in some of the world's most remote and challenging environments. Our groups are intentionally small, our operating season each year is incredibly short, and each spot on a trip represents an irreplaceable opportunity. The closer to a trip's start date that a guest cancels, the more difficult it becomes to fill that spot, and that is what informs our cancellation policy.

It's also the reason that we **STRONGLY RECOMMEND PURCHASING TRIP CANCELLATION & INTERRUPTION INSURANCE.**

Both [TRAVEL GUARD](#) & [RIPCORDER](#) are good options. We're excited to share Alaska with you, in the most authentic way we believe possible! Thanks so much for understanding, and for choosing Alaska Alpine Adventures. We'll see you in Alaska soon!

The Curated Experience

Denali's most authentic 3-night experience! Combine genuine remote Alaska solitude and an amazing roundtrip scenic floatplane flight into Denali National Park with the greatest basecamp hiking trip in Alaska and immerse yourself in the real Denali National Park!

Denali is America's quintessential National Park. With over 6 million wild acres, the tallest peak in North America, and countless rivers and glaciers, Denali National Park lives up to this title as America's crown jewel. While most visitors experience the park via its main northern corridor, the Denali Park Road, the south side of the park sees little annual visitation and remains completely road-less and virtually unexplored.

Accessing the park by bush plane from Anchorage, Alaska, your first treat will be a phenomenal floatplane flight up the Ruth glacier near Denali. You'll then spend 3-days and 3-nights camping and hiking Denali's wild side from the comfort of a wilderness basecamp situated on the edge of the mighty Ruth Glacier, and only 17 miles from the summit of North America's highest peak. This rustic wilderness camp, near the shore of a small glacial lake, puts you right in the epicenter of the Alaska Range and in a place where you will feel humbled by the scale and majesty of Denali National Park.

With a light daypack, you'll spend your days hiking miles of vast tundra and exploring the seemingly endless glaciers, returning to camp each evening for a delicious feast under the midnight sun. See Denali in a way that few ever have, and experience Denali Unexplored!

The Denali Basecamp is rated a **LEVEL 2 Hiking** trip

Physical conditioning and consistent exercise prior to these trips IS mandatory.

Physical conditioning and consistent exercise prior to these trips is essential. You will be backpacking and hiking off-trail over steep, hilly, and uneven terrain, often covering more than 6 miles in a day with up to 2000' of elevation gain/loss. You may encounter short stretches of thick vegetation and may also experience Alaska's diverse selection of insect species. You will be camping in a very remote wilderness, sleeping in tents, relieving yourself in places with a stunning view, and sometimes enjoying all of the above in the rain. You will be expected to load and unload your own gear, carry a portion of the group gear, and manage your own physical comfort and well-being. Pre-trip physical conditioning should begin no later than 2 months before departure and should include walking or hiking, preferably with loaded backpack of 30-40 lbs.

DAY-BY-DAY ITINERARY *(*Sample)*

Day 1: This morning you'll start the day with an orientation and gear check at our shop in Anchorage. We'll then make the transfer to Lake Hood Seaplane Base, the busiest float-plane airport on earth, where we'll board a floatplane bound for the Denali National Park and our home for the next 3 nights. This 1-hour scenic flight will take us over alpine tundra, braided rivers, and cascading waterfalls. Weather permitting, we'll enjoy spectacular views of Denali, the highest peak in North America as we travel up the mighty Ruth Glacier, to the entrance of the Great Gorge - the deepest trench on earth! Our skilled bush pilot will then take us down to a small lake nestled in a cleft between the Ruth and Tokositna Glaciers, where we will unload our gear on a small beach and then wave the airplane goodbye. We'll set up camp near the lake, bask in the new-found solitude, and then take a short early evening hike before dinner.

Lunch & Dinner Included.

Distance: 1.5 miles, Elevation Gain: 500'

Day 2-3: The options are staggering! With almost unlimited daylight, we'll spend these days in the tundra hills near camp, destined for magnificent views of the Backside Glacier, Ruth Glacier, and if weather permits, "The Great One" 20,310-foot Denali. On our hikes, you'll learn in practice the skills necessary to hike off trail in the Alaska wilderness - including reading a topographic map, choosing the best route, using trekking poles, and traveling efficiently. Your treks will give you the chance to learn firsthand the glacial features of Denali's frozen rivers of ice, the valley that bears the scars of thousands of years of glacial activity, and the more recent visual indications of climate change on the Alaska landscape. After two full days of exploration, we'll tally our wildlife and mountain peak sightings as we enjoy a filling meal in the wilderness.

All meals included.

Distance: 6-10 miles, Elevation Gain: 1500-2500'

Days 4: Another breakfast and hot drink will fuel us for our last few hours in the wilderness. After breaking camp, and moving our kit to the lakeshore, we'll await our ride back to civilization. As the float plane descends on the Lake, we'll depart knowing that this amazing place has made a lasting impact on our souls. We'll return to Anchorage by early afternoon. Occasionally, weather conditions prevent our groups from flying out of Denali on this final day. Therefore, we strongly suggest spending this night in Anchorage and booking your return flights for the next day or later.

Breakfast & lunch included.

Traveling with Alaska Alpine Adventures

GUIDES: It takes a talented individual to be able to lead an Alaska expedition, and our Alaska guides are true outdoor multi-sport professionals. We hand-select each guide based on their ability to deliver an unparalleled level of customer service, a strong wilderness skill set and background and an insatiable passion for Alaska's wild spaces. Each guide is medically certified as a Wilderness First Responder and carries the necessary qualifications to competently backpack, hike, kayak, canoe and climb throughout Alaska's vast wilderness. When you choose to travel with us, you can rest assured that your trip has been meticulously planned and executed by real Alaskans with authentic Alaska know-how, skill, and ability.

FOOD: Our food is excellent – in fact it is something that clearly differentiates us from our competition. We have spent the past twenty-five years fine-tuning our backcountry menu. Breakfasts include steel cut oats, egg scrambles, homemade granola and cereal, locally roasted coffee, assorted tea, and cocoa. Lunches could include an Italian club torta sandwich, asiago bagels and Alaska lox, a curried tuna pita, or perhaps crackers with genoa salami with a roasted red pepper goat cheese spread. We also feature daily snack packs with an assortment of energy bars, chocolate, meat, and cheese. Dinners could include pasta carbonara, Alaska reindeer rotini, chicken and chipotle beef enchilada bowls, and more. And a delicious desert experience is always included after dinner.

CAMPING: Alaska Alpine Adventures has camped in some of Alaska's most remote and wild places; from the remote beaches of the Alaska Peninsula, the rugged glaciers of the Neacola Mountains, to the open tundra expanses of the Brooks Range. With literally thousands of nights camped in the Alaska wilderness in all seasons, we have refined camp craft to a science. Expedition quality tents, included trekking poles, group-size tarp shelters, and only the best cooking equipment accompany each and every one of our wilderness trips. Not only does including the finest equipment make camp life more comfortable, but it also adds a level of safety to trips that could otherwise be relentlessly unforgiving to the unprepared. In other words, we take our camping very seriously!

SMALL GROUPS: Small groups are the best way to witness the Last Frontier! This wilderness trip is limited to 8 guests. And with a guest to guide ratio of 4:1 you are assured of our commitment to risk management and safe operations. Furthermore, it is a best practice to keep groups exceptionally small to minimize our impact on the Alaskan backcountry by following [Leave No Trace](#) principles.

GRATUITIES: Tips to guides are left entirely to your discretion. While any amount is greatly appreciated, tips often range from 5-10% of the trip cost per person and are split among the guides.

EQUIPMENT INFORMATION – DENALI BASECAMP AND HIKE

This document lists ALL clothing, equipment and other gear needed for your Alaska Alpine Adventure.

Please note that some items will be supplied by Alaska Alpine Adventures; other items you will need to provide yourself. The checklist below contains all of the clothing and gear required for this trip offered by Alaska Alpine Adventures. By following them, you should find yourself well equipped for your adventure. We are always happy to discuss equipment needs with you, so please do not hesitate to contact us with any questions.

TRUST YOURSELF, NOT THE WEATHER!

We travel light, yet spare few comforts, and the following checklists reflect this dogma. Our lists are based on typical seasonal and environmental conditions you are likely to encounter. Please refer to your particular adventure's itinerary for specific weather conditions you can expect at your destination. Living by the tenant of "hope for the best, plan for worst, and probably get something right in between" has served us quite well and often seems to sum up the Alaska experience. Environmental comfort levels will vary from person to person, so please select your clothing and equipment accordingly and use the following checklists as a guide. It must be stressed that the items listed (or your own favorite substitution) are **MANDATORY** and must be in your possession when you head into the field.

OUTDOOR EQUIPMENT SUPPLIERS

Over the course of many years spent in the most rugged environments, your Alaska Alpine Adventures guides have had the opportunity to put their gear and clothing to the ultimate test - daily use. Our guides have repeatedly found that certain companies produce consistently tough, durable products that stand up to both time and the elements. You can find most of these brands at your local outdoor retailer or online. The Alaska Alpine Adventures website also contains links to suppliers, printable gear lists, and helpful videos. We've also included the gear list below.

AVAILABLE RENTAL ITEMS

Alaska Alpine Adventures rents quality down and synthetic sleeping bags, inflatable air mattresses and Crazy Creek chairs for this trip. Please visit our rental page on our website by clicking [THIS LINK](#) for more info.

FREQUENTLY ASKED QUESTIONS

Will I be kept safe on the trip?

Because our trips take place in remote & wild environments, there are inherent risk factors that can't be entirely avoided without compromising the unique character of the activities associated with adventure travel. Obviously, it's not our intention to reduce your enthusiasm for outdoor adventure activities, but we believe it is important for everyone to know in advance that real adventure involves real risk, much of which simply cannot be controlled Alaska Alpine Adventures or Alaska Alpine Adventures' employees. By joining one of our trips, you are representing that you understand, and are accepting of, the risks described in the acknowledgment/release document that all participants are required to sign. You are also representing that you will accept the degree of personal responsibility necessary to participate in adventure travel activities.

What about the mosquitoes?

In case you've heard horror stories... the number of mosquitoes is greatly dependent on hatching season, annual weather conditions, specific locations, and time of year. While you are bound to encounter some mosquitoes during the course of your summer adventure, their numbers rarely present major problems. That said, please arrive prepared with insect repellent and a head net to fend off any bugs that are present.

Will bears be a problem?

Alaska is bear country! There are both grizzly and black bears in most of the wilderness areas of Alaska we visit. We love seeing bears in the wild and consider bear sightings one of the most thrilling privileges common in Alaska's backcountry. That said, traveling safely and taking precautions to minimize a negative encounter are considerations we take very seriously. In addition to conducting a thorough pre-trip bear safety orientation, your guides also take many precautions on all of our trips including: 1) all of our food is packaged to minimize odors – we vacuum seal most of our fresh ingredients and sauces, we pack our food in bear resistant food canisters, and we store our food well away from camp. 2) We make noise when we're hiking in thick brush or when we're hiking in windy conditions to minimize surprise encounters. 3) We keep an exceptionally clean camp and 4) as a last resort guides travel armed carrying pepper spray.

Will I see wildlife on my trip?

It's important to keep in mind that while we do have abundant wildlife populations in Alaska, animals are often obscured by the vastness of the landscape, subject to imprecise migration routes and often affected by Alaska's dynamic weather patterns.

While wildlife viewing on our trips has been historically reliable, and we schedule our trips to maximize the chances of seeing wildlife, there are simply too many factors to make any guarantees.

What will the weather be like on my trip?

Alaska has some of the most dynamic and dramatic weather on the planet. During the summer months in Alaska, average daytime temperatures range from 60° to 80°F. Nighttime and morning temperatures are cooler, but rarely dip below 40°F. Fall arrives early at these latitudes and you'll experience cooler temperatures and fewer hours of daylight in late August and early September. Throughout the summer season, you may experience rain, sun, wind, clouds, and fog on your adventure. We live by the adage "prepare for the worst, hope for the best, and you'll likely end up with some of both".

CONTINGENCY ITINERARY (*sample)

Please note that occasionally weather conditions prevent us from flying into our basecamp location in Denali National Park. Given the schedule limitations encountered when our air service provider faces weather delays, there are few options available to fly after our scheduled time. If weather looks to be improving AND the air service can accommodate a later flight, we will wait in Anchorage as long as possible. However, If we aren't able to fly into the Park on day one, you will receive a \$300 refund or a \$500 future trip credit for the missed flight into Denali, and then the itinerary will continue as follows:

Day 1: This afternoon, we'll drive north on the Glenn Highway toward Hatcher Pass State Park. This spectacular 1.5-hour drive hugs Chugach State Park's western boundary. We'll then continue northbound into the Matanuska River valley, and an area characterized by awesomely steep and rugged peaks, beautifully clear creeks, a rich history of placer mining, and good options for hiking! We'll set up camp at a local campground and by early evening will enjoy a late dinner.

All meals included.

Day 2: Today we'll meet our glacier guides, strap on crampons and ice axes, and spend the day ice climbing on the mighty Matanuska Glacier. Designed for just about everyone, this glacier adventure is suitable for beginners and experts alike. At over 27 miles long, the Matanuska Glacier is the largest glacier accessible by car in the United States. From its origins in the highest peaks of the Alaska's Chugach Mountains, the Matanuska is fed by incessant winter storms that dump more than 100' of snow each year in the Chugach. From the moment you step onto the base of the glacier, expert guides will begin by teaching you the basics on moderate slopes, and by the end of the day you'll be scaling vertical walls of ice!

All meals included.

Day 3: Today we'll make our way up the Glen Highway toward Tahneta Pass, situated between the Chugach Mountains to the south and the Talkeenta Mountains to the north. Our objective today will be Gunsight Mountain, a 6400' mountain on the north side of the highway. The 3500' climb is challenging and long, but the rewarding views of the area's towering peaks, glaciers, and river systems make it a worthwhile objective for the day. We'll end the day with a celebratory meal at a local restaurant before making our way back to the campground.

Breakfast and lunch included.

Distance: 8 miles Elevation Gain: 2000'-3000'.

From the Reed Lakes trail to the ridgelines jutting upward from Hatcher Pass itself, you'll find this alpine playground a fantastic diversion from the disappointment of missing the Denali National Park experience. By 4pm we'll be heading back south toward Anchorage. Keep the cameras handy because the drive back to Anchorage is beautiful.
